MAK P-Lock

Mounts

Product number: 6150-91XX

Description

- The MAK P-Lock is a patented tool-free reflex sight mounting system designed for pistol underbarrel rails. Made in Germany from durable 7075-T6 aluminum, it ensures a secure attachment, allowing for rapid fire while keeping the dot on target. Its multi point locking system guarantees stability, even under intense recoil, and it preserves the visibility of stock iron sights beneath the static P-Lock mount.

Properties

- Lightning-fast assembly/disassembly without tools
- No changes to the handgun required
- Automatic multi point locking system
- Made in Germany
- Mounting interface for Docter/Noblex Footprint

Datasheet

Mechanical Features

Body Material	7075 T6 Aluminium
Color	Black
Weight	58 g
Dimensions (WxLxH)	33 x 51 x 65 mm

Standards
